

### Solar pool pumps TCHKS series

#### Features

- » Anti-rust shell prevents the penetrations of water to the engine. The pump is sealed preventing leaks.
- » High flow rates with high efficiencies of movement.
- » Quiet operation
- » The main part of the pump is made of a special plastic polymer resistant to high and low temperatures, so it is durable.
- » It handles easily and comfortably.
- » Easy to maintain, due to the supply of spare parts.

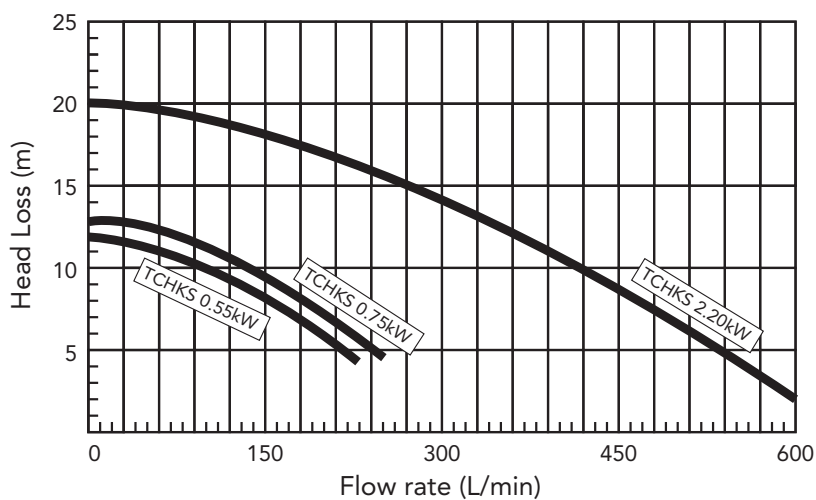

#### Included accessories

- » Pump controller

#### Electrical specifications

Model	Voltage (V)	Power (kW)	Power (HP)	Hmax (m)	Qmax (m <sup>3</sup> /h)	Port size
TCHKS 0.55kW	DC48V	0,55	0,75	12	16	50 - 1.5"
TCHKS 0.75kW	DC72V	0,75	1,00	13	17	50 - 1.5"
TCHKS 2.20kW	DC220V	2,20	3,00	21	39	63 - 2.0"

TCHKS 0.55kW: 560mm (L)  
 TCHKS 0.75kW: 560mm (L)  
 TCHKS 2.20kW: 580mm (L)
